Happy D's Competitive Advantage

Products

If your team is looking for reduced moisture, fire roasted, and/or oven roasted products, our company should be the first one that comes to mind; our quality is incomparable and the prices are among the most competitive. Outside of roasting, our team specializes in all herbs such as green onion, shallot, chive, ginger, garlic, and leek. We offer both conventional and organic to satisfy everyone's demand.

Logistics

Our logistics team is available around the clock and is always there to provide the service to make sure you know where your order is and when it will arrive. We specialize in FOB Oakland, California, as our warehouse is located there, but we are just as happy to do C&F internationally or domestically within the US.

Product Inquiry

Not sure if we supply it? Ask! Not sure if it is grown in China? We'll do the research! Our business is catered to what the client needs. Our buyers and quality team are experts in helping find what you need and know about China like the back of our hand. The network they have built with the local farmers and processors in China allows our team to not only source products from anywhere, but ask for custom growing.

Research and Development

Have a new product you want to try? Our manufacturers encourage our clients to actively challenge them with new products, cuts, or specifications. Let us know, and we will do our best to accommodate your request.
